✉ sambell912@gmail.com

THEORETICAL BIOPHYSICIST specialised in stochastic systems and critical phenomena. Strong ability to translate problems into mathematical models, investigate these models, and communicate the results to a wider audience.

SKILLS

TEX	Expert
Inkscape	Expert
Mathematica	Expert

EXPERIENCE

POST-DOCTORAL RESEARCHER JUN 2019–PRESENT
Institut Curie, Paris, FRANCE.

Working on models of active matter and critical phenomena, specifically for the influence of external fields on epithelial monolayers. Boxed in, and I hadn't realised that the x was funky.
Let's try another paragraph and see if this one works or not.

PhD in theoretical biophysics Oct 2015–Jun 2019
Cavendish Laboratory, University of Cambridge, UK.

- Published 8 research papers
- What else did I do?

LANGUAGES

English	Native speaker
French	B2/C1

EDUCATION

MSci, Experimental & Theoretical Physics Oct 2014–Jun 2015
Trinity College, University of Cambridge, UK.

BA, Natural Sciences (ETP) Oct 2011–Jun 2014
Trinity College, University of Cambridge, UK.
